Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.
10 minutes

- Team gathering**
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.
- Set the goal**
Think about the problem you'll be focusing on solving in the brainstorming session.
- Learn how to use the facilitation tools**
Use the Facilitation Superpowers to run a happy and productive session.

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM
How might we bridge the communication gap between differently abled peoples and the normal people.

Go for volume.

If possible, be visual.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP
You can select a sticky note and hit the pencil (switch to sketch) icon to start drawing!

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

USER INTERFACE

Design the application with a friendly interface to all types of people.
The App should be easily navigatable

FEATURES

Available to people of all age groups
A software that is accessible to all
Integrates and provides by web camera and the background disturbance & objects
Chatbot For Help
A software that is accessible to all
Available to people of all age groups
The system are collected to get maximum response
The system are collected to get maximum response
The system are collected to get maximum response

APP EXPERIENCE

Creating an interactive and user-friendly dashboard
The user must be able to understand the dashboard
Avoiding errors as far as possible

Step by step usage guide and help are provided
Language used in software is kept simple

DEVELOPMENT PROCESS

Collect various data necessary for training and testing
Making a modular software for quickstart
Fast learning and handling the exception efficiently
Avoiding errors as far as possible
Figure out the user is doing a wrong sign and show error
A global security check is done to ensure the people can share their thoughts
Translation should be faultless
Follow the modular app language requirements

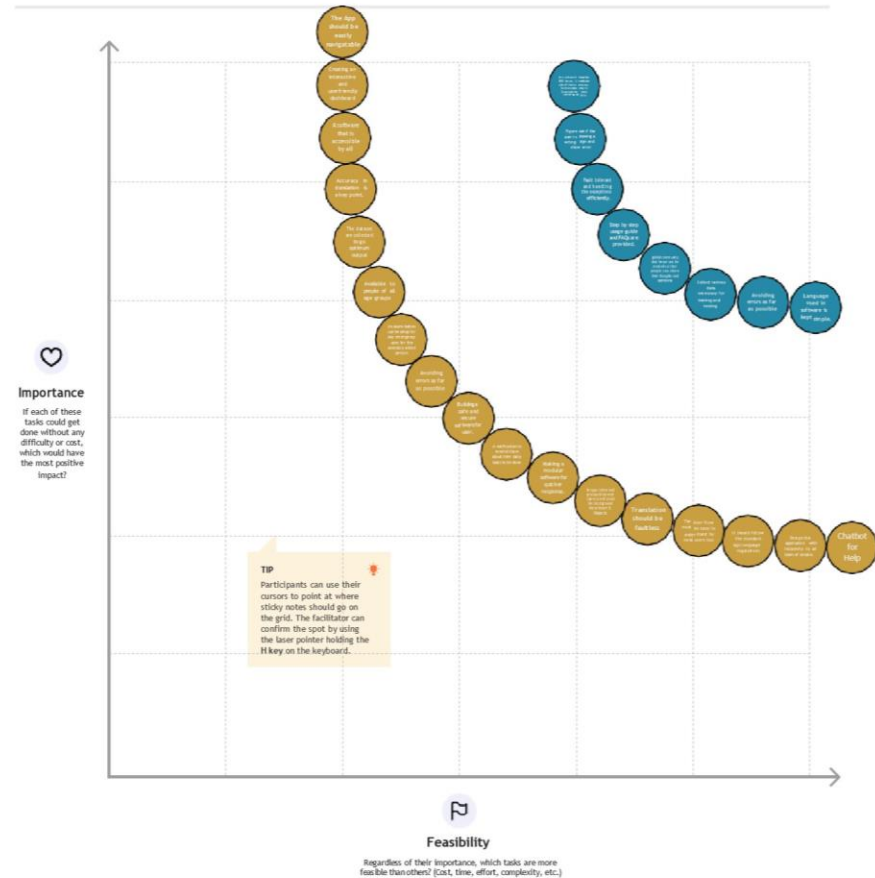

TIP
Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

- Share the mural**
Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.
- Export the mural**
Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward

- Strategy blueprint**
Define the components of a new idea or strategy.
